Dear Mr Van Sambeek,

I would like to confirm that, since 1990, we propose PRINS as preferred supplier for LPG systems for CHRYSLER/DODGE/JEEP vehicles. The Prins Autogassystemen B.V. Vapour Sequential Injection system (VSI) performs without any problems with the homologated engines/vehicletypes. So far since 2002, Prins has installed about 350 cars with the VSI system.

Best regards,  
DaimlerChrysler Nederland B.V.

  
Jeroen Pecasse  
Manager After Sales Chrysler/Jeep/Dodge
